USB FLASH DRIVE

SanDisk Cruzer Pop USB flash drive

\$9.90 (SGD)

It is not too late to show your love for football with World Cup-themed gadgets. This special-edition USB flash drive is adorned with colourful football-inspired art by Brazilian artist Romero Britto.

Included with the drive is SanDisk SecureAccess software that provides secure file encryption and password protection for increased file privacy. The device is available at all branches of Popular Bookstore.

HEADPHONES

Beats by Dr Dre Solo2 Headphones

\$310

Beats has redesigned its headphones, improving the acoustics and giving music a wider range of sound and enhanced clarity, it says.

The Solo2 has a more streamlined, lightweight design than earlier versions, with a curved frame that should make it more durable and comfortable for extended use. For travel, the headphones fold easily into a compact size, making them easy to carry around.

The headphones are available in five colours: black, blue, pink, grey and red.

APPLE IPHONE CASE

Triple S Smart Stand

\$34.90

Need to have your music with you in the car, by your bed or even in the bathroom? This stand weighs a hefty 270g, but has several useful features.

A built-in horn speaker amplifies sound by up to 20 per cent without draining the battery.

A clear polycarbonate shield covers the front, protecting the iPhone from water, sand and dust – perfect for trips to the beach. The stand has three different viewing positions that will suit texting, video viewing or conference calls.

When the shield is on, the phone's touchscreen display becomes inaccessible, but a companion app will let you control music playback using tilt gestures.

TRAVEL PILLOW

Cabeau Evolution Pillow

\$49

Long flights can be less uncomfortable with this travel pillow made from ergonomically designed memory foam. The pillow provides 360-degree support for your head and chin, keeping your head from lolling and preventing a stiff neck.

A media pouch on the side of the pillow lets you keep an MP3 music player or smartphone close at hand to provide hands-free listening.

The pillow's velour cover can be removed for washing. The pillow comes with its own travel bag that compacts the pillow to a quarter of its size.

APPLE IPAD CASE

STM Bags Studio for iPad Air

\$60

It happens to all of us. Inevitably, at some point, we will drop our shiny new gadget. This lightweight case will cushion the blow for your tablet.

While it is designed for the Apple iPad Air, this polycarbonate case should support most tablets with 10-inch screens. Tough and light, it has a soft inner lining that protects against scratches and bumps.

A patented magnetic closure allows the case to prop up the iPad in different positions for comfortable typing or video viewing.

The front cover conveniently wakes the device when it is opened and puts it to sleep automatically when you close it. The case itself offers easy access to device ports and control buttons.

ALL-IN-ONE

Dell OptiPlex 9030 All-In-One

Price not available

Integrating desktop components into the monitor, this all-in-one saves you desktop space while looking sleek at the same time.

It is powered by a fourth-generation Intel Core i processor and Intel integrated graphics for an enjoyable entertainment experience.

Waves MaxxAudio technology delivers powerful sound. A one-cord connection keeps the workspace neat. The 23-inch edge-to-edge glass panel has a full high-definition 1,920 x 1,080 resolution display and is available with multi-touch features.

It comes with a full high-definition webcam, universal headset, display and HDMI in/out ports.
