

## High Definition Memories

Store your memories in high-definition with the Veho Kuzo HD Camcorder. This nifty camcorder records in 1080p HD and has other wonderful features such as a high-resolution 3-inch touchscreen, motion detection, video stabilizer and direct conversion for uploads to YouTube. It also comes with 128MB of internal memory which can be expanded via SD memory cards with capacities of up to 32GB.

## Triple Channel Power

New Intel-certified DDR3 memory 1333/1066 U-DIMM kits for desktops and 1333/1066 SO-DIMM kits are now available from A-DATA. The DDR3 kits are available in both triple-channel and dual-channel kits. The triple-channel kit supports the Intel X85 chipset powered by Core i7 processors, while the dual-channel kit is optimized for the Intel P55 chipset.

## Hasty Traveler

If you are looking for a portable and convenient solution to carry moderately large chunks of data around, be sure to check out the Kingston DataTraveler 410 USB flash drive. This little flash drive is now available in capacities of up to 32GB, and is capable of reading and writing data at a blazing 20MB/s. For peace of mind, the DataTraveler also comes with a five-year warranty.
