Pump it Up

01 Apr 2014

These travel gizmos just need a little air to become useful – and fold flat when not in use.

SLEEP COCOON

Made of the same comfy material as sweatshirts, the Travel HoodiePillow (right) wraps around your head, offering privacy, warmth and snugness in which to fall asleep. Two drawstrings allow you to adjust the hood to your liking, while an inflatable neck pillow insert provides support for your neck and head.

SOFT LIGHT

The inflatable LuminAID (right) diffuses the LED light like a lantern and protects your eyes from glare. Seven hours of charging in the sun will yield up to 16 hours of light. It is great for camping or as a light source for emergencies and boat trips – plus it's water-resistant and floats if dropped overboard.
